Nguyen Ho Thanh Phong

Binh Tan, HCMC | 0931429277 | nguyenhothanhphong5@gmail.com | github.com/phongdz76 | Portfolio

Overview

Software Engineering graduate with hands-on experience in production-grade full-stack web development and business analysis, specializing in React, Next.js, Node.js/Express, TypeScript, and modern databases (MongoDB, PostgreSQL). Proven ability to bridge business requirements with technical execution, design scalable reservation engines, multi-gateway payments (Stripe, VNPay, ZaloPay, MoMo), and real-time systems (Socket.IO). Passionate about writing clean, resilient code, robust test suites, and delivering scalable end-to-end web applications.

Experience

VNA Group HCM City, Vietnam
Business Analyst and Developer *Oct 2026 – Nov 2026*

- Conducted requirements elicitation and client alignment sessions; leveraged interactive prototypes and live product demos to effectively persuade stakeholders, negotiate technical trade-offs, and balance business requirements with development constraints
- Structured and modeled end-to-end business workflows into technical specifications, designing 10 Mongoose data models, user journeys, and REST API contracts (dual-channel Web and Zalo Mini App)
- Built the core booking engine to handle concurrent reservations and eliminate duplicate booking requests
- Integrated ZaloPay payment gateway (cryptographic HMAC-SHA256 callbacks, auto-reconciliation, refund query) and designed role-based access control for administrative tour management

Innorix HCM City, Vietnam
Front-End Developer *May 2026 – Jul 2026*

- Redesigned and upgraded the user interface for the Exacoola landing page and company homepage based on Figma design specifications, translating high-fidelity mockups into responsive, pixel-accurate components using React-Vite
- Collaborated closely with the design team to ensure visual consistency and optimized loading performance across devices
- Coordinated with the QA/testing team via Notion to track feedback, fix UI issues, and ensure the interface matched the design accurately

Target Media HCM City, Vietnam
Data Admin and Developer *Dec 2025 – Apr 2026*

- Provided PG support via hotline and monitored data for cheating detection
- Structured and adjusted project data according to core business principles
- Prepared and set up project schedules to meet campaign requirements
- Developed a high-performance Landing Page using React-Vite
- Researched and integrated Booking APIs to automate scheduling

Projects

TourMate | *React, Express 5, MongoDB, ZaloPay* Oct 2026

- Developed a dual-channel booking system with a responsive Web SPA and Zalo Mini App (ZMP SDK), paired with a role-based staff admin portal
- Built an Express 5 and Mongoose 9 REST API with seat availability validation to eliminate duplicate bookings
- Integrated ZaloPay (HMAC-SHA256 callbacks, refund query) and Leaflet GIS interactive maps for destination routes and departure scheduling
- Links: Live Demo | GitHub

Nhom Kinh Thanh Phong | *Next.js 16, PayloadCMS, PostgreSQL, Docker* Sep 2026

- Architected an enterprise catalog and quotation portal using Next.js 16 App Router, React 19, Tailwind CSS 4, and automated SEO metadata
- Implemented a headless CMS with PayloadCMS 3 and PostgreSQL for product/project catalogs, media assets, and quotation workflow tracking
- Engineered background scheduled jobs for transactional email notifications via Gmail SMTP, database rate-limiting, and encrypted DB backup routines

- Links: Live Demo | GitHub

Task Manager | *React 19, Express 5, MongoDB, Socket.IO* Mar 2026

- Built a collaborative task workspace using a decoupled architecture with React 19, Vite, Tailwind CSS 4, and Express 5 REST API
- Engineered real-time direct and task messaging with floating chat widgets, replies, and private Cloudinary attachments via Socket.IO
- Implemented Google OAuth 2.0, JWT auth, RBAC permissions, Recharts progress metrics, and automated Excel reporting via ExcelJS
- Links: Live Demo | GitHub

SGTech E-Commerce | *Next.js 16, Prisma 6, MongoDB, Stripe, VNPay, ZaloPay* Sep 2025

- Architected a full-stack store with Next.js 16 App Router, React 19, TypeScript, Prisma ORM 6, NextAuth, and Vietnamese full-text search
- Engineered an atomic inventory reservation engine preventing overselling during concurrent checkouts, with signed time-limited delivery quotes
- Integrated multi-payment gateways (Stripe, VNPay, MoMo, ZaloPay, COD) with cryptographic webhooks, refund queues, and post-purchase RMA returns
- Links: Live Demo | GitHub

Technical Skills

Programming Languages: JavaScript (ES6+), TypeScript, HTML5/CSS3, SQL, Python
Backend Development: Node.js, Express.js 5, Next.js API, RESTful APIs, Prisma ORM, Mongoose, Socket.IO, NextAuth, JWT, OAuth 2.0
Frontend Development: React.js (React 18/19), Next.js (App Router), TypeScript, Tailwind CSS, Vite, Zalo Mini App (ZMP SDK)
Databases & DevOps: MongoDB, PostgreSQL, MySQL, MSSQL, Docker
Payments & Cloud Services: Stripe, VNPay, ZaloPay, MoMo, AWS S3, Cloudinary, Nodemailer, Vercel, Netlify
Testing & Developer Tools: Node Test Runner, Postman, Swagger/OpenAPI, Git, GitHub, VS Code, Figma

Education

Ho Chi Minh City University of Foreign Languages and Information Technology HCM City, Vietnam
Bachelor of Software Engineering (GPA: 3.2 / 4.0) *2022 – Apr 2026*

Certifications

IELTS Certification – Overall Score: 4.5 / 9.0 Dec 2025
Focus: Reading Technical Documentation
